

CONFIDENTIAL - EXHIBIT 703-REVILLI, Hosty

11/27/68

One of the more fascinating parts of this 11/22/63 report, later sworn to, is the wrong address given for Oswald, his earlier address. This certainly does indicate Dallas Police knowledge of LHO and adds point to the unanswered NC staff questions I have in other documents, how did the police know to go to 1026 Beckley? Is there meaning in Hosty's having told Revill LHO was a "member of the Communist Party", which was known to be false, if he did? Hosty knew this was not Oswald's address, therefore he was not likely Revill's source. This letter was written before Oswald was charged with killing Tippit. It does not say that the word was Hosty was the first word on LHO, only that it was from the FBI. However, from its agents in the ACLU, it would not have gotten this address for LHO, would have connected him with Michael Laine.
